REMARKS

According to an Interview Summary reflecting a telephone interview by the undersigned with Examiner Laura M. Schillinger of the Patent Office, the application is allowable (and the June 14, 2007 final Office Action has been withdrawn).

Claims 22, 38 and 60-69 are pending, with claims 1-21, 23-37 and 39-59 having previously been canceled, without prejudice or disclaimer. By this Amendment, claim 64 has been amended to clarify the claimed subject matter. More specifically, the term "an MOCVD method" in claim 64 has been replaced with "a conventional low pressure MOCVD method".

Applicant submits that the application is in condition for allowance, and earnestly solicits the allowance of the application.

If a petition for an extension of time is required to make this response timely, this paper should be considered to be such a petition. The Patent Office is hereby authorized to charge any fees that are required in connection with this amendment and to credit any overpayment to our Deposit Account No. 03-3125.

If a telephone interview could advance the prosecution of this application, the Examiner is respectfully requested to call the undersigned attorney.

Respectfully submitted,
